Fishing and hunting gear, guns and ammunition, targets, holsters and optics barely scrapes the surface of their inventory.

American Outdoors also provides concealed carry classes for both Oregon or the popular Utah permits. Due to overwhelming requests from the community they now offer Live Fire courses with NRA Certified instructors. They also offer hunter safety courses for all ages through the Oregon Department of Fish and Wildlife. Mission: Working together for all students to achieve high levels of learning.

Students in our school district are taught by an amazing group of teachers with an excellent support staff. Each school works to customize their program to meet the learning needs of each student and to foster school and community pride. We believe all our students can learn at high levels and become amazing adults in our community. This is our goal!

We are proud of our community partnerships including our partnership with Chemeketa Community College. Through this partnership we offer students at Dallas High School, Morrison, or our online program access to community college coursework prior to obtaining their high school diploma.

We hope the entire community believes as we do in community wide DRAGON PRIDE!

Renee, Owner

House of Floors is proud to be part of such a wonderful community. Renee McBride, owner, is very thankful for the community's support since the start of the business in 2005. House of Floors opened up on Monmouth Cutoff and quickly out-grew that location. They moved over to Jefferson Street to allow them to keep up with the larger demand from the community. In 2010, they moved to the corner of Main & Mill Streets. In 2013, they moved to their current location on Main Street in the historic Cooley's Furniture building where they have been happy to meet the area's growing needs for flooring.

House of Floors specializes in all forms of floor covering. They have an expanded showroom that allows you to browse all of the different options and styles available. Like so many customers have already learned, you can depend on House of Floors for quality and exceptional service and products.

WE ARE DALLAS...2030. Set in the picturesque mid-Willamette Valley alongside the foothills of the Coast Range, we are a prosperous community that has preserved its small-town character. Our 1898 county courthouse looks out over our town square and revitalized historic downtown. We have planned well for our growth and development, updating essential infrastructure and strengthening our neighborhoods.

WE ARE SAFE AND HEALTHY...with state-of-the-art medical and emergency facilities and services that meet the needs of our growing population. A pristine Rickreall Creek is a focal point for our beautiful parks, natural areas and recreation opportunities that have expanded as we have grown.

WE CARE DEEPLY...for our community and one another. Community volunteerism and engagement is the foundation of our identity. We have built on our agricultural heritage to create a strong and innovative economy. We have invested in businesses that produce well-paying jobs. We support partnerships and a range of educational opportunities that equip students for success in our community, workforce and world.

We vigorously engage in the life of our city and welcome our future. WE ARE DALLAS.
